Grocery shopping, dry cleaning pick up and drop off, gift giving services, pet care, home organizing, and wait service for deliveries and home repair vendors, are just a small sample of the services provided.

"Creating a distinctive living experience through concierge services is not unique, but customizing the proper solution to the needs and demands of individual residents is unique," says Chapman Concierge President, Colette Chapman. "Our customized services take care of the little things that a demanding schedule leaves little or no time for busy people to attend to themselves. Our complete line of Lifestyle Management Services and special programs are designed to further augment and enhance the community living experience."

Chapman Concierge not only provides services to individual and residences, but to corporate, small business and private/social club members. For more information about Chapman Concierge, please call (973) 889-0064 or visit www.chapmanconcierge.com.
